

Privacy notice for the Wraparound Childcare Programme

What is the Wraparound Childcare Programme (“the programme”)?

Wraparound childcare is before and after school care for primary school aged children in England during term time, such as regular afterschool provision that runs usually from around 8 am until 6pm or later. The childcare should be available every school day outside of regular school hours and is aimed at helping parents access more childcare and work the hours they want to. This is different from out-of-school activities, or school clubs, which are less frequent and can be a one-off activity.

Around 60% of primary schools across England offer wraparound childcare, both before and after school. The Department for Education (DfE) has provided additional funding to help expand wraparound care provision in a number of local authority areas. This funding is being used to support more primary schools and more private, voluntary, and independent providers, including childminders and early years settings, to offer more wraparound childcare sessions. The government’s ambition is that by 2026, all parents and carers of primary school-aged children who need it will be able to access term time childcare in their local area from 8am-6pm, so that parents and carers can work without worrying about childcare.

Your child/children is/are attending wraparound childcare that has been supported through this additional funding from the DfE to expand provision in the local authority area where your child attends school and that is why you have received this information.
